GENERAL REMARKS

1. 'Tenement' is a general word used to cover all types of permits, licences and leases throughout the Commonwealth, regardless of the specific names given to them by the various States and Territories.
2. 'Date of Expiry' means the date of expiry of current tenure. There may be rights to renewal for further periods, in some cases over reduced areas.
3. Where two or more companies are listed an asterisk following the name of a company means that the company is the operator in that particular tenement at 30.6.64.
4. The Petroleum Tenement Map and this Key is based on information supplied by the various State and Territories Departments of Mines, and additional details should be obtained directly from them.

PETROLEUM TENEMENT AREAS HELD AT 30.6.64

The table below shows the total approved area throughout the Commonwealth in square miles at the end of June 1964, and includes off-shore regions. By this is meant all areas held under titles, irrespective of the specific names attributed to them by the various States and Territories. Applications for areas pending approval have been excluded as some overlap or conflict in other regards.

ANALYSIS OF PETROLEUM TENEMENT DISTRIBUTION

The following list shows the distribution by States and Territories of the petroleum tenements and applications for tenements held by the exploration companies. It is a cross-reference to the "Key to Petroleum Tenement in Force at 30th June, 1964" which is based on information received from the Departments of Mines of the various States and Territories.

The tenements held or applications pending in the relevant State or Territory are shown opposite the name of the registered tenement holder. Where there are joint holders the information is repeated opposite each partner. Where nothing appears opposite a name the operator is represented in Australia but does not hold a tenement or is negotiating for a partnership.
