Jo Lock

Record 1984/9

BIBLIOGRAPHY OF THE SOLOMON SEA REGION

Compiled by

Jo Lock

This bibliography does not attempt an exhaustive coverage of all the earth science literature for the region. It does, however, give a comprehensive list of relevant geological and geophysical publications.

No abstracts are included. For BMR Bulletins, Records and Reports the number of pages of text are given and this generally excludes appendices, figures, maps, plates and tables.

- AGAPOVA, G.V., MAROVA, N.A., and SUZYUMOV, A.E., 1974: Relief and structural position of the deep-sea trenches in the vicinity of New Guinea and the Admiralty Archipelago. *Oceanology*, 14(2), 282-288.
- ANDREWS, J.E., 1973: Correlation of seismic reflectors. In: Burns, R.E., Andrews, J.E., and others, Initial Reports of the Deep Sea Drilling Project, 21, Washington (US Government Printing Office), 459-480.
- ANIKOUCHINE, W.A., and LING, HSIN-YI, 1967: Evidence for turbidite accumulation in trenches in the Indo-Pacific region. *Marine Geology*, 5, 141-154.
- ARCULUS, R.J., and JOHNSON, R.W., 1978: Criticism of generalised models for the magmatic evolution of arc-trench systems. *Earth and Planetary Science Letters*, 39, 118-126.
- ARCULUS, R.J., and JOHNSON, R.W., 1980: 1937: Rabaul eruptions, Papua New Guinea : translations of contemporary accounts by German missionaries. BMR, Australia, Report, 229, microfiche.
- ARCULUS, R.J., JOHNSON, R.W., CHAPPELL, B.W., MCKEE, C.O., and SAKAI, H., 1983: Ophiolite-contaminated andesites, trachybasalts, and cognate inclusions of Mount Lamington, Papua New Guinea; anhydrite - amphibole bearing lavas and the 1951 cumulodome. *Journal of Volcanology and Geothermal Research*, 18, 215-247.
- ASHLEY, P.M., and FLOOD, R.H., 1981: Low-K tholeiites and high-K igneous rocks from Woodlark Island, Papua New Guinea. *Journal of the Geological Society of Australia*, 28, 227-240.
- AUSTRALIAN AQUITAINE PETROLEUM PTY LTD, 1967: Sepik aeromagnetic report report. BMR, Australia, Petroleum Search Subsidy Acts Report 67/4629 (unpublished).
- BAIN, J.H.C., 1973: A summary of the main structural elements of Papua New Guinea. In: P.J. Coleman (editor) *The Western Pacific, Island Arcs, Marginal Seas, Geochemistry*. University of Western Australia Press, Perth, 147-161.
- BAIN, J.H.C., DAVIES, H.L., and others, 1973: Geological map of Papua New Guinea at 1:1 million scale. BMR, Australia.
- BELFORD, D.J., 1977: Quasicyclammina gen. nov. and Thalmannammia (Foraminiferida) from the Palaeocene of Papua New Guinea. BMR *Journal of Australian Geology and Geophysics*, 2, 35-42.
- BELFORD, D.J., 1978: The genus Triplasia (Foraminiferida) from the Miocene of Papua New Guinea. BMR, Australia, Bulletin 192, 1-7.
- BELFORD, D.J., 1981: Co-occurrence of middle Miocene larger and planktonic Foraminifera, New Ireland, Papua New Guinea. BMR, Australia, Bulletin 209, 3-21.

- BERGER, W.H., and JOHNSON, T.C., 1976: Deep-sea carbonates : dissolution and mass wasting on Ontong Java Plateau. Science, N.Y. 192, 785-787.
- BERGER, W.H., JOHNSON, T.C., and HAMILTON, E.L., 1977: Sedimentation on Ontong Java Plateau : observations on a classic 'carbonate monitor'. In: Anderson, N.R., and Malahoff, A., (editors), Fate of Fossil Fuel CO₂ in the Ocean. Plenum Publishing Corporation, New York, 543-567.
- BINNEKAMP, J.G., 1973: Tertiary larger foraminifera from New Britain, PNG. BMR, Australia, Bulletin, 140, 1-26.
- BINNEKAMP, J.C., BELFORD, D.J., and TERPSTRA, G.R.J., 1978: Micropalaeontological reports. Appendix 1 In: Hohnen, P.D., Geology of New Ireland, Papua New Guinea. BMR, Australia, Bulletin 194 (PNG 12), 36-37.
- BICKEL, R.S., 1974: Reconnaissance geology of Cape Vogel Basin, Papua New Guinea. Bulletin of the American Association of Petroleum Geologists, 58, 2477-2489.
- BLAKE, D.H., and MEIZITIS, Y., 1967: Geology of Bougainville and Buka Islands, New Guinea. BMR, Australia, Bulletin, 93, 56 pages.
- BLOW, W.H., 1979: The Cainozoic Globigerinidae (a study of the morphology, taxonomy, evolutionary relationships and stratigraphical distribution of some Globigerinidae, mainly Globigerinacea). E.J. Brill, Leiden. Volume 1, text Part I, Part II, Section 1, 752 pages. Volume 2, text Part II, Section 2, 753-1413. Volume 3, Atlas, 264 plates with notes.
- BOSTROM, R.C., 1978: Motion of the Pacific plate and formation of marginal basins: asymmetric flow induction. Journal of Physics of the Earth 26, Supplement, S103-122.
- BOSTROM, R.C., 1979: Motion of the Pacific Plate and formation of marginal basins: asymmetric flow induction. In: Uyeda, S., Murphy, R.W., Kobayashi, K., (editors), Geodynamics of the Western Pacific. Proceedings of the International Conference on Geodynamics of the Western Pacific - Indonesian Region, March 1978, Tokyo. Advances in Earth and Planetary Sciences, 6, 103-122.
- BRIDEN, J.C., HURLEY, A.M., and SMITH, A.G., 1981: Palaeomagnetism and Mesozoic-Cenozoic palaeocontinental maps. Journal of Geophysical Research, 86(B12) 11, 631-656.
- BROOKFIELD, M.E., 1977: The emplacement of giant ophiolite nappes: I. Mesozoic Cenozoic examples. Tectonophysics, 37, 247-303.
- BROOKS, J.A., 1962: Seismic wave velocities in the New Guinea Solomon Islands region. American Geophysical Union, Geophysics Monograph 6, 2-10.
- BROOKS, J.A., 1965: Earthquake activity and seismic risk in Papua and New Guinea. BMR, Australia, Report 74, 30 pages.

- BROOKS, J.A. (editor), 1970: Investigations of the crustal structure in the New Britain-New Ireland region 1969, Part 1, geophysical and geological data. BMR, Australia, Record, 1971/131.
- BROOKS, J.A., CONNELLY, J.B., FINLAYSON, D.M., and WIEBENGA, W.A., 1971: St George's Channel-Bismarck Sea Trough. *Nature, Physical Science*, 229(7), 205-207.
- BROWN, A.R. and WEBB, J.P., 1971: Oceanographic investigations in Melanesia by the Hawaii Institute of Geophysics - equipment and operations. BMR, Australia, Record 1971/32, 19 pages.
- BROWN, C.M., PIETERS, P.E., and ROBINSON, G.P., 1975: Stratigraphic and structural development of the Aure Trough and the adjacent shelf and areas. *Australian Petroleum Exploration Association Journal*, 15, 61-71.
- BROWN, C.M., PIGRAM, C.J., and SKWARKO, S.K., 1980: Mesozoic stratigraphy and geological history of Papua New Guinea. *Paleogeography, Palaeoclimatology, Palaeoecology*, 29, 301-322.
- BRYAN, W.B., and LUYENDYK, B.P., 1973: Rifting history of the Woodlark Basin in the Southwest Pacific. *Bulletin of the Geological Society of America*, 84, 1125-1134.
- BMR, 1969: Papuan Basin and Basic Belt aeromagnetic survey. BMR, Australia, Record 1969/58, 40 pages.
- BMR, 1971: Eastern Papua aeromagnetic survey. BMR, Australia, Record 1971/67, 60 pages.
- UKRY, D., 1973: Coccolith and silicoflagellate stratigraphy, Tasman Sea and Southwest Pacific Ocean, Deep Sea Drilling Project, Leg 21. In: Burns, R.E., Andrews, J.E. et al. *Initial Reports of Deep Sea Drilling Project*, 21. Washington, US Government Printing Office, 885-894.
- BULTITUDE, R.J., JOHNSON, R.W., and CHAPPELL, B.W., 1978: Andesites of Bagana volcano, Papua New Guinea: chemical stratigraphy, and a reference composition. *BMR Journal of Australian Geology and Geophysics*, 3(4) 281-295.
