INTRODUCTION

This bibliography has been prepared by the Petroleum Exploration Branch of the Bureau of Mineral Resources, with assistance from the Geological Survey of Western Australia.

It contains all known available information current to 28th February 1970, and is divided into two sections; one for published and one for unpublished information.

Each section is arranged in alphabetical order, with any information that becomes available under the Petroleum Search Subsidy Act listed under the operating Company and not the author of the report.
