Western Margins Panorama Chart 28b

North West Shelf Project Team
Digital compilation by N.R. Montgomerie

© Commonwealth of Australia 1998

AGSO has tried to make the information in this product as accurate as possible. However, it does not guarantee that the information is totally accurate or complete. Therefore, you should not rely solely on this information when making a commercial decision.

Information on the timescale and biostratigraphic zonation schemes presented on these charts was compiled by the following scientists of the Australian Geological Survey Organisation:

- Dr Graham D. Moss* Tertiary, foraminifera
- Dr George C.H. Chaproniere Tertiary, spores & pollen
- Dr Elizabeth M. Truswell* Jurassic - Tertiary, nannoplankton
- Dr Samir Shafik Jurassic - Cretaceous, spores & pollen
- Dr Dennis Burger* Permian - Triassic, spores & pollen
- Dr Clinton B. Foster Carboniferous, ostracods
- Dr Peter J. Jones* Devonian, macro vertebrates
- Dr Gavin C. Young* Silurian, trilobites & brachiopods
- Dr Desmond Strusz* Ordovician & Triassic, conodonts
- Dr Robert S. Nicol Cambrian - Ordovician, trilobites & brachiopods
- Dr John R. Laurie Cambrian - Ordovician, trilobites
- Dr John H. Shergold*

* Retired

Further information about this chart and related products can be obtained from either Dr George C.H. Chaproniere or Dr Robert S. Nicol. Phone (02 or 61-2) 6249 9111 or e-mail gchapron@agso.gov.au or rnicoll@agso.gov.au

The zonations presented here are from the STRATDAT Oracle database, which was developed by Dr Clinton Foster, Lynton Spencer and Bruce Wyatt under the auspices of the Australian Petroleum Systems Project, managed by Dr John Bradshaw. STRATDAT is maintained by the AGSO Phanerozoic Timescales Calibration and Development Project Team.

The zonations are plotted directly into MicroStation 95 design files, using a macro language interface linked to STRATDAT. This approach gives great flexibility in layout, ease of correction and accurate translation from the database to the printed product.
