Map Reliability

Topographic information checked from 2001 satellite imagery, and supplemented using other sources in 2001.

This map was not field checked and some information may not be accurate.

How to Quote a Grid Reference for a Particular Point

Blue numbers on the map grid lines are 10 000 metre intervals

Example: - BUNGE REAK

1. Quote this map..... Bega

2. Read letters identifying 100 000 metre square containing the point..... FV

3. Locate the vertical grid line to the left of the point and read large number on the grid line..... 9

4. Estimate tenths from the grid line to the point..... 2

5. Locate the horizontal grid line below the point and read large number on the grid line..... 4

6. Estimate tenths from the grid line to the point..... 2

Thus the reference for - BUNGE REAK is..... Bega FV9242
