QUALIFICATIONS RELATING TO THIS MAP

1. This map is indicative only of the location of the territorial sea baselines and the outer limits of Australia's maritime zones, and should NOT be used as a definitive source of information. Some limits may be subject to change.

2. The territorial sea baselines and certain maritime zones are established under the Seas and Submerged Lands Act 1973.

3. Waters described as Australia's Internal Waters are internal waters of Australia for the purposes of international law. They do not equate with waters within the limits of the states or the Northern Territory for constitutional purposes. The extent of the latter waters is determined by the Letters Patent relevant to each state and the Northern Territory and the common law.

4. Certain limits and boundaries are established under various treaties with neighbouring States (not all are in force).

5. Limits of coastal waters adjacent to each of the Australian States and of the Northern Territory are established under the Coastal Waters (State Power) Act 1980, Coastal Waters (Northern Territory Powers) Act 1980 and the Offshore Petroleum and Greenhouse Gas Storage Act 2006.

6. In the event of an inconsistency between this map, and the territorial sea baselines or limits established under Australian legislation or the treaties, then the legislative instruments or the treaties shall prevail.

7. Except as required by law, the Commonwealth will not be liable for any loss, damage, expense or cost (including any incidental or consequential loss or damage) incurred by any person or organisation arising out of use of, or reliance on, this map.
