Map Reliability

Topographic information checked from multiple sources including satellite imagery. This map was not field checked. Every effort has been made to make the map a useful reference.

About the NATMAP Series

The 1:1 000 000 map series consists of 50 maps derived from the 1:250 000 map series. These maps are available both flat and folded. For more information contact Geoscience Australia.

Your feedback is Welcome

If you discover errors or omissions on the map, please let us know via the map amendments page on our website or send your annotated map to us. We will replace your map with the corresponding current edition.

We value your assistance for the next edition. Email: mapfeedback@ga.gov.au

Acknowledgments

Geoscience Australia gratefully acknowledges contributions to map content. Information is supplied by the Australian Government, State and local governments, private sector agencies and individuals. A comprehensive list is available from our web site.
