
A REGIONAL REVIEW OF COASTAL HAZARDS ALONG THE SOUTH WEST COAST OF WESTERN AUSTRALIA

Minerals and Geohazards Division
Perth Cities Project

Jaclyn Brachmanis

**This report was produced as a part
of the graduate traineeship program**

**Geoscience Australia
April – June 2002**

TABLE OF CONTENTS

1 – INTRODUCTION

1.1 BACKGROUND.....	1
1.2 COASTAL HAZARDS.....	1
1.3 PROJECT AIMS.....	2

2 – GENERAL GEOLOGY OF THE COAST

2.1 INTRODUCTION.....	3
2.2 GEOLOGY.....	3
2.2.1 Tamala Limestone.....	3
2.2.2 Safety Bay Sand.....	6
2.3 COASTAL STABILITY.....	7
2.3.1 Introduction.....	7
2.3.2 Tamala Limestone.....	7
2.3.3 Safety Bay Sand.....	9

3 – A REGIONAL REVIEW OF COASTAL HAZARDS

3.1 INTRODUCTION.....	11
3.2 GEOGRAPHY AND PHISOGRAPHY OF THE STUDY AREAS.....	12
3.2.1 Study area number 1.....	12
3.2.2 Study area number 2.....	13
3.2.3 Study area number 3.....	13
3.2.4 Study area number 4.....	14
3.3 COASTAL HAZARDS.....	14
3.3.1 Field investigations.....	14
3.3.2 Study area number 1.....	14
3.3.3 Study area number 2.....	16
3.3.4 Study area number 3.....	17
3.3.5 Study area number 4.....	17

4 – MINIMISING COASTAL HAZARDS

4.1 INTRODUCTION.....	18
4.2 GEOTECHNICAL REPORTS.....	18
4.3 MINIMISING COASTAL LIMESTONE HAZARDS.....	19
4.3.1 Introduction.....	19
4.3.2 Education.....	19
4.3.3 Warning signs and fences.....	20
4.3.4 Catch fences and catch ditches.....	22
4.3.5 Limestone blocks and spalls.....	22
4.3.6 Mechanical removal.....	22

4.3.7	Demolition.....	22
4.4	MINIMISING COASTAL DUNE HAZARDS.....	23
4.4.1	Introduction.....	23
4.4.2	Education.....	23
4.4.3	Artificial walkways.....	23
4.4.4	Brushing and revegetation.....	24
4.4.5	Sand fences.....	24
4.4.6	Regrading dune surfaces.....	24
4.5	HERITAGE VALUES.....	25
4.5.1	Introduction.....	25
4.5.2	Natural heritage values.....	25
4.5.3	Indigenous heritage values.....	26
4.5.4	The Heritage Council of Western Australia.....	26
4.5.4	Conclusions.....	27
	REFERENCES.....	28
	APPENDIX A.....	30
	Site descriptions.....	30

LIST OF FIGURES

CHAPTER TWO

2.1	Location of the Perth study area.....	4
2.2	Calcrete casts and moulds of fossil roots in the Tamala Limestone.....	5
2.3	Mindarie Beach – relationship between S1 and S2 Safety Bay Sands.....	7
2.4	Overhang development due to wave erosion.....	8
2.5	Erosion of foredunes due to wave action.....	9

CHAPTER THREE

3.1	Location map showing LGAs and the four study areas along the coast.....	11
3.2	Typical exposure of Tamala Limestone within study area no.1.....	12
3.3	Typical example of beach profile in area no.3.....	13
3.4	Sites visited during a 2 day field investigation.....	15
3.5	Large limestone blocks that have fallen from a cliff.....	15
3.6	Solution piping within the Tamala Limestone.....	16

CHAPTER FOUR

4.1	Prohibitive signs constructed to keep people out of hazardous areas.....	20
4.2	Informative signs informing people of limestone hazards.....	21
4.3	Limestone blocks encroaching on to a public stairway.....	21

LIST OF TABLES

4.1	List of LGAs with coastal outcrops of Tamala Limestone.....	19
