About this Map
Projection: Map Grid of Australia 1994 (MGAS94)
Horizontal Datum: Universal Transverse Mercator on GRS80 ellipsoid
Geocentric Datum of Australia 1994 (GDA94) equivalent to WGS84
Vertical Datum: Australian Height Datum (AHD)
Horizontal Accuracy: ±1.140 metres
Vertical Accuracy: ±1.25 metres
Elevations in metres; 50 metre contour interval

Map Reliability
Topographic information checked from 2003 satellite imagery, and supplemented using other sources in 2004. This map was not field checked and some information may not be accurate.

About the NATMAP Series
Geoscience Australia produces over 500 maps at 1:250 000 scale in this NATMAP series which covers Australia. They are used by professional and recreational users and are available both flat and folded. A corresponding data product, GEODATA TOPO-250K is also available.

Your Feedback is Welcome
If you discover errors or omissions on the map, please let us know via the map amendments page on our web site or send your annotated map to us. We will replace your map with the corresponding current edition. We value your assistance for the next edition. e-mail: mapfeedback@ga.gov.au

Acknowledgments
Geoscience Australia gratefully acknowledges contributions to map content. Information is supplied by the Australian Government, State and local governments, private sector agencies and individuals. A comprehensive list is available from our web site.

Legend
Dual carriageway; Distance in kilometres
Principal road; Locality; Built-up area
Secondary road; Bridge; Causeway
Minor road (access & condition not assumed)
Vehicle track (access & condition not assumed)
Route marker: National, State
Gate; Stock grid
Embankment; Cutting
Landing ground; Airport; Heliport
Multiple track railway; Station or siding
Single track railway; Bridge; Tunnel
Powerline (110 kV and over)
Homestead; Building's; Ruin
Chimney; Silo; Tower
Fence; Levee; Open cut mine
Mine; Windpump; Yard
Contour with value; Depression contour
Horizontal control point; Spot elevation
Sand; Sand dunes
Sand ridges; Pinnacle; Cliff
Forest, wood or shrub land; Rainforest
Plantation; Urban recreation parkland
Orchard or vineyard; Windbreak
Bore or well; Spring; Tank or small dam
Watercourse (presence of water not implied)
Subject to inundation; Swamp
Lake; Perennial, Non-perennial; Waterhole
Wreck: Submerged, bare or awash
Foreshore flat; Lighthouse
Shoal; Tidal ledge or reef; Mangrove
Rock: Submerged, bare or awash; Breakwater
Jetty or pier; Wharf; Saline coastal flat
State or Territory border
Reserved area boundary
Prohibited area boundary

Climatic Graph
Proserpine (estimated)
Average temperature range
Average rainfall

How to Quote a Grid Reference for a Particular Point
Blue numbers on the map grid lines are 10 000 metre intervals.
Example: A point is located at 399 374.
1. Quote this map as Proserpine.
2. Read letters identifying 100 000 metre square containing the point.
3. Locate the vertical grid line to the left of the point and read large number on the grid line.
4. Estimate tenths from the grid line to the point.
5. Locate the horizontal grid line below the point and read large number on the grid line.
6. Estimate tenths from the grid line to the point.
Thus the reference for a point is Proserpine FT8720.

NATMAP TOPOGRAPHIC MAP 1:250 000 SCALE (1cm to 2.5km)
Edition 1
SG56-15
2006
Proserpine QUEENSLAND

Scale 1:250 000
Kilometres 0 5 10 15 20 25 30 35 40 45 50
Ticks 2.0mm line weight 0.2mm

PROSERPINE SF55-04 QUEENSLAND, EDITION 1

The North East extents of the map will be coincident with the top right corner trim lines (for this example these are 19°57', 150°05'). The north south line that runs through the centre of the graticule should be aligned vertically on the sheet.

Colours are printed representations (actual map printing colours may be different than shown here).
