

Coverage Of Airborne Geophysical Surveys

Colour index maps showing the coverage over Australia of AGSO and State Government airborne magnetic and radiometric surveys have been updated and are now available.

The map discriminates between surveys employing flight line spacings of 500 m and less, and more regional surveys.

The map also shows the State/Territory borders and names the 1:250 000 Sheet areas. Scale is 1:10 000 000.

The price of one copy of each map is \$10.80 (including GST).
