

# Geophysical Data and Map Release for Queensland

The Geological Survey of Queensland (GSQ) and Geoscience Australia (GA) announce the release of a composite grid of airborne magnetic data at 250 m grid resolution and an enhanced pixel-image map at 1:2 500 000 scale for the whole of onshore Queensland and some offshore areas (marine ship-track data).

The data in this grid include most publicly available data, the majority acquired by GSQ and GA, and also some data acquired by private companies and now in the public domain.

## MAGNETIC MAP OF QUEENSLAND

## SURVEY LINE SPACING

### Hardcopy TMI image

A colour map of the TMI pixel image at 1:2 500 000 scale is available from either GA or GSQ at a cost of A\$41.47 per map (including GST); postage and packing is extra.

**Note:** Data over the Mt Isa Inlier belonging to MIM Exploration Pty Ltd were included in the grid used to produce the hard copy map.

### Digital TMI Data

Digital grid data (cell size 250 m) are available on CD-ROM from GA at a cost of A\$99 per CD (including GST); postage and packing is extra. The data are also available from GSQ (price on application).

**Note:** Data over the Mt Isa Inlier belonging to MIM Exploration Pty Ltd are not included in the digital grid data for sale.
