# EARTH SCIENCES CAREERS EXPO 2012

THURSDAY 18 OCTOBER  
1PM-5PM

## MEET AND GREET AN EARTH SCIENTIST!

Do you have an interest in science and technology but are unsure about the types of jobs available in these subjects?

The Geoscience Australia Careers Expo is an ideal place to start finding out.

Earth scientists seek out the answers to questions such as:

- Which parts of Australia are safest from earthquakes and tsunamis?
- How did the unique Australian landscape evolve?
- What does our National anthem mean by 'wealth for toil'?
- How can fossils help us to find energy sources for electricity generation?

If you are in years 9-12, then come along and speak to our scientists about their career paths and day-to-day responsibilities. Feel free to ask lots of questions and we will help you understand the diverse range of careers in the Earth Sciences.

### DETAILS

#### Date

18 October 2012

#### Time

1pm-5pm

#### Location

Scrivener Room  
Geoscience Australia  
Cnr Jerrabomberra Avenue and Hindmarsh Drive  
Symonston

Please email registrations to [education@ga.gov.au](mailto:education@ga.gov.au) with a name, number of people in the group and approximate arrival time.

Be part of this year's Earth Science Week
