# Minerals Exploration Seminar 2004

PERTH Monday, November 29

Burswood Convention Centre, Great Eastern Highway

TIME	PRESENTATION	SPEAKER
8.30 – 9.00am	REGISTRATION AND COFFEE	
9.00 – 9.10	Welcome	Neil Williams Chief Executive Officer
9.10 – 9.30	Program overview	Chris Pigram Chief of Minerals Division
9.30 – 10.00	Yilgarn crust and lithosphere framework	Richard Blewett
10.00 – 10.30	Tectonic and metallogenic evolution of the Yilgarn Craton/Yilgarn metallogeny	Kevin Cassidy
10.30 – 11.00	MORNING TEA	
11.00 – 11.30	Architecture and mineral systems of the Tanami	Dave Huston
11.30 – 12.00pm	Regolith – Room at the top	Lisa Worrall
12.00 – 12.30	3D mapping and constrained potential field inversion	Richard Lane
12.30 – 1.00	Integrated geochemical modelling of mineral systems to facilitate exploration under cover	Lesley Wyborn
1.00 – 2.00	LUNCH	
2.00 – 2.30	Structure, tectonic framework and mineral systems of the Olympic Cu-Au province	Patrick Lyons
2.30 – 3.00	IOCG deposits in Australia: area selection insights from the Gawler Craton	Roger Skirrow
3.00 – 3.30	Airborne gravity	Richard Lane
3.30 – 3.45	AFTERNOON TEA	
3.45 – 4.15	Phanerozoic granite systems and their gold potential	Dave Champion
4.15 – 4.45	Magmatic Ni-Cu and PGE deposits in Australia: characteristics and potential	Dean Hoatson
4.45 – 5.00	Discussion	Chris Pigram
5.00 – 6.00	NETWORKING RECEPTION	

NOTE: Geoscience Australia staff will be available for follow up discussions as required.  
If you would like to follow up any issues please speak to the relevant person to arrange a meeting.
