

# Uncovering East Tennant

## Technical workshop and ground release

Geoscience Australia, in collaboration with the Northern Territory Geological Survey, is hosting a workshop outlining new mineral exploration opportunities in the East Tennant area, which lies beneath the Barkly Tableland and extends approximately 250 km east of Tennant Creek.

This area has been the focus of geochemical, geological and geophysical data acquisition as part of Geoscience Australia's Exploring for the Future program.

This free event will showcase new insights into the East Tennant area and will describe how this under-explored region has opportunities for greenfields mineral discoveries.

### Details

**Time:** 1 pm – 4 pm, 3 September 2019

**Location:** 3<sup>rd</sup> floor Centrepoint Building (48-50 Smith Street), Darwin

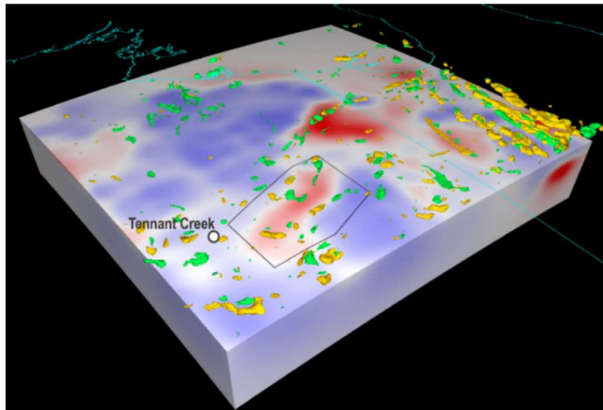

**Contact:** Anthony.Schofield@ga.gov.au

### To secure your place

Places are limited so be quick.

*Location of the East Tennant area with regions of modelled magnetite-rich (gold) and hematite-rich (green) alteration and magnetotellurics data from the first deployment of the Australian Lithospheric Architecture Magnetotelluric Project (AusLAMP) in northern Australia*

Time	Item	Presenter
13:00 – 13:10	Welcome and introduction	Anthony Budd (Program 3 Leader – National Drilling Initiative, MinEx CRC and Geoscience Australia)
13:10 – 14:00	East Tennant area: new datasets, insights, and opportunities for mineral exploration	Anthony Schofield (Activity Leader – Undercover Geology and Stratigraphic Drilling, Geoscience Australia)
14:00 – 14:20	Upcoming work program in East Tennant	Angela O'Rourke (Section Leader – Regional Geology and Drilling Section, Geoscience Australia)
14:20 – 14:40	Northern Territory Geological Survey activities in the Barkly and Gulf areas	Dorothy Close (Director Regional Geoscience, Northern Territory Geological Survey)
14:40 – 15:00	East Tennant ground release and how to apply for tenure	TBA (Department of Primary Industry and Resources)
15:00 – 16:00	Informal poster session and discussion
