VAT SUBMISSION FORM

TOPO250K		TOPO100K	

NTDB WORK UNIT TYPE (indicate/tick appropriate scale)

WORK UNIT NAME: *	**KANGAROO ISLAND SPECIAL**
WORK UNIT NUMBER: * (Where applicable):	**J5502 / 8423**
Previous Map Type (eg. NATMAP, JOG, RASC) & Edition No. (where applicable)	**NTMS Edition 2**
TECHNICAL SPECIFICATION VERSION:	**4.0**

SUBMISSION DATE:	**21/10/05**
PRODUCER / COMPANY:	**XYZ GRAPHICS**
PRODUCER CONTACT NAME:	**FRED JACKSON**
PRODUCER CONTACT NUMBER:	**(03) 6326 7856**

Has this Work Unit been submitted previously?	**Yes / No**
Submission Number (sequence):	**2**

Primary themes *(or Feature Datasets) revised, as per the Project Instructions:

Those themes identified in the Project Instructions as being the primary themes to be revised. This list does <u>not</u> include other themes/Feature Datasets that have been adjusted to maintain spatial relationships (coincidence etc), or Specification compliance generally, with the primary theme revised. If all themes have been revised, indicate accordingly.

<u>**Note**</u>**: It is important that <u>all</u> Feature Datasets supplied to Producers by Geoscience Australia on the allocation of a Work Unit (i.e. base data supplied for revision) be returned to Geoscience Australia at the submission stage. This requirement remains irrespective of whether individual Feature Datasets has been revised or not during production**.

ALL themes	☐	Marine	☐
Administration	☐	Physiography	☐
Aviation	☐	RailTransport	☐
Cartography	☐	Relief	☐
Culture	☐	RoadTransport	☐
Drainage	☐	SurveyMarks	☐
Framework	☐	Utility	☐
Habitation	☐	Vegetation	☐
Industry	☐	Waterbodies	☐

DATA, DATA FILES AND/OR HARD COPY MATERIAL FOR SUBMISSION

SUBMISSION TYPE / DESCRIPTION (where applicable)	SUPPLIED?	
	YES	NO
• **TOPO250K / TOPO100K Enterprise Geodatabase (Disconnected Edit Version) in GDA94 Geographic Coordinate system format.** **Details of relevant paths/links to be supplied at submission.**	☐	☐
• **TOPO250K / TOPO100K Personal Geodatabase in GDA94 Geographic Coordinate system format.**	☐	☐
• **TOPO250K / TOPO100K Shape (.shp) Files in GDA94 Geographic Coordinate system format.**	☐	☐
• **Encapsulated Postscript (.eps) Files (where map product is generated)**	☐	☐
• **A hard copy quality proof of the revised map product (where applicable)**	☐	☐
• **A scanning transformation RMS Error Reports/s for all newly scanned data where applicable.**	☐	☐
• **A listing of all Action Requests (in chronological order) that are relevant to the Work Unit in production, in either hard copy and/or digital format ("Appendix J – Action Requests" form)**	☐	☐
***** *Note: the NTDB Work Area number may not necessarily relate to numbers shown in the NTDB MapIndexes Feature Dataset, and may be designated according to non-standard geographical extents, in accordance with the Project File instruction. Work Areas/Packages may be named on a regional area or thematic basis, and differ to those already existing in the MapIndex Feature Dataset.*		

Production Notes

For the TOPO250K/TOPO100K NTDB Databases, Production Notes (previously supplied for GEODATA Series 2 in either textual or hard-copy format) should now reside in the NTDB database itself, and not as a separate document. The **ProductionNote Points** Feature Dataset should be populated with this information, and a relevant attribute item named **ProductionComments** is provided in this Feature Dataset for this purpose.
