

17-10206-3

- ① Upper Triassic stratigraphic pinch-out against Broome Platform
- ② Faulted anticline play
- ③ Lower Triassic (lower Keraudren) stratigraphic play (eg. intraformational plays, floodplain, thin marine incursion sands, amalgamated fluvial channels, fluvial delataic plays)
- ④ Combination structural-stratigraphic plays in the Lower Triassic (lower Keraudren Formation)
- ⑤ Lower Triassic horst play
- ⑥ Lower Jurassic -fluvio-deltaic delta front, near shore sands play
- ⑦ Upper Triassic faulted anticline and stratigraphic plays
- ⑧ Upper Permian reef plays

- S Oil and/or gas prone source rock
- R Reservoir
- Possible oil accumulation
- Possible gas accumulation
